

UAF Compliance with the EU RoHS Directive

Author: Chris Picha

Document #: FS-5.0

Revision: 6

Title: EU Directive 2015/863 – RoHS Compliance

Date: 11/1/18

Purpose:

To address the compliance of UAF products in regards to the European Union’s Directive (EU)2015/863, Restrictions of Hazardous Substances.

Directive Summary:

In accordance with the RoHS Directive (EU)2015/863, the following are the specific materials that are banned (with few exemptions) from all new electrical and electronic equipment (EEE):

- Lead
- Mercury
- Cadmium
- Hexavalent Chromium
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP) – {Effective July 22, 2019}
- Butyl benzyl phthalate (BBP) – {Effective July 22, 2019}
- Dibutyl phthalate (DBP) – {Effective July 22, 2019}
- Diisobutyl phthalate (DIBP) – {Effective July 22, 2019}

Conclusion:

All products of Universal Air Filter Company are manufactured within the limits of the directive without exemptions.

Further, Universal Air Filter Company does not manufacture electrical and electronic equipment (EEE) and is not subject to RoHS CE-marking conditions & requirements.

Therefore, Universal Air Filter Company holds full compliance with the EU RoHS Directive (EU)2015/863.
